Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 29 June 2005.

DETAILED ACTION

The Examiner for your application in the USPTO is now Daniel C. Gamett, Ph.D., Art Unit 1647.

1. The amendments of 06/29/2005 have been entered in full. Claims 1-15, 17-19, 25, 26, 29, and 30 are cancelled. Claims 16, 20-24, 27, and 28 are under examination.
2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claim Rejections Maintained

3. Claims 16, 20-24, and 27-28 remain rejected under 35 U.S.C. 101 as claiming the same invention as that of claims 1, 11, 12, 13, 14, 15, and 20 of U.S. Patent No. 6,759,386 (6 July 2004) Franco. Applicant's arguments filed 06/29/2005 have been fully considered but they are not persuasive. Applicant first points out that the claims of the '386 patent require a method step of "selecting a patient displaying symptoms of coronary artery disease" which is not required in instant claims 16 and 24. Applicant then argues that instant claims 16 and 24 could be literally infringed without literally infringing a corresponding claim in the '386 patent, by not having the selection step. The methods of the instant claims, however, intrinsically include a step of selecting a patient displaying symptoms of coronary artery disease and cannot be performed without such a step. The preambles of instant claims 16 and 24 indicate that the recipient of treatment is a patient displaying symptoms of coronary artery disease. How else would this patient become the recipient of treatment without having been selected for treatment?
4. Applicant then describes two scenarios in an attempt to elucidate the alleged distinction between the two sets of claims. Applicant contends that a physician could practice the

Art Unit: 1647

instantly claimed method on patient that had been referred to the physician after a previous confirmed diagnosis of coronary artery disease without literally infringing the '386 claims because the physician did not select on the basis of symptoms. The only case where this could be apt is when the patient had been diagnosed as having coronary artery disease without having displayed any symptoms thereof. As stated above, the preambles of the instant claims indicate that the recipients of treatment are patients displaying symptoms. Furthermore, symptom-free patients are excluded from the instant claims because method step e) requires that treatment steps b) through d) be repeated until there is a clinical indication of amelioration of *symptoms*. Therefore, one cannot practice the instantly claimed methods without literally infringing the '386 patent.

Conclusion

5. No claims are allowed.
6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.

NEW CENTRAL FAX NUMBER

Effective July 15, 2005

On July 15, 2005, the Central FAX Number will change to **571-273-8300**. This new Central FAX Number is the result of relocating the Central FAX server to the Office's Alexandria, Virginia campus.

Most facsimile-transmitted patent application related correspondence is required to be sent to the Central FAX Number. To give customers time to adjust to the new Central FAX Number, faxes sent to the old number (703-872-9306) will be routed to the new number until September 15, 2005.

After September 15, 2005, the old number will no longer be in service and **571-273-8300** will be the only facsimile number recognized for "centralized delivery".

CENTRALIZED DELIVERY POLICY: For patent related correspondence, hand carry deliveries must be made to the Customer Service Window (now located at the Randolph Building, 401 Dulany Street, Alexandria, VA 22314), and facsimile transmissions must be sent to the Central FAX number, unless an exception applies. For example, if the examiner has rejected claims in a regular U.S. patent application, and the reply to the examiner's Office action is desired to be transmitted by facsimile rather than mailed, the reply must be sent to the Central FAX Number.
